

A convincing product concept satisfies every wish in modern air humidification

CP2 Self Generating Steam Humidifier for duct insertion

The Condair CP2 suits your needs perfectly:

- Simple dimensioning
- Clearly separated electric and water sections
- Easy access to electronics
- Simple maintenance
- Operated with tap water

With standard stainless steel distributor pipe or OptiSorp - short humidification manifold system - the humidification distance is up to 4 times shorter than conventional steam distribution pipes.

Model	Kg/hr	Nominal power PN max	Nominal current Amps max.	Main Fuses F1 / Amps
CP2H2	2	1.5 kW	6.5A	10A
CP2H4	4	3.0 kW	13.0A	16 A
Dimensions	height 478 mm width 285 mm depth 180 mm
