

Humidification & Psychrometrics

A 1hr CPD seminar for
mechanical engineers

Humidification and Evaporative Cooling

 **condair**

Humidification & Psychrometrics CPD Seminar

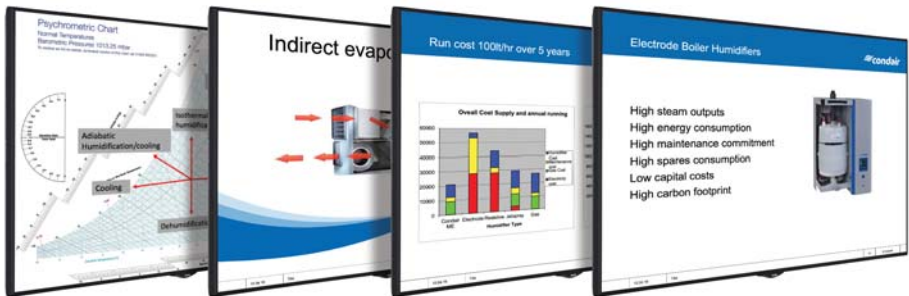

This one-hour CPD (Continuing Professional Development) seminar will provide attendees with:

- An overview of commercial humidification
- Explanation of psychrometric calculations
- Detailed analysis for all types of humidifiers with the pros and cons of each
- Best practice guide to humidifier selection

Seminars are free of charge, presented in-house and are typically given over a lunchtime.

Refreshments are paid for by the presenter and certificates are emailed to all attendees after the event for obtaining CIBSE CPD points.

Here's what some of our delegates say:

“ Very well executed. Good mix of theory and examples. Very enthusiastic presenter. ”

Arup, London

“ Very professional and informative presentation, received well by all the staff. ”

T Squared, Glasgow

“ Very relevant to our job. Learnt a lot during the hour seminar. Excellent presentation, very well explained. ”

Harley Haddow, Edinburgh

“ Very well presented seminar, very relevant to consultant design. ”

Varming Consulting Engineers, Dublin

“ Extremely beneficial - thank you. ”

Mansfield Pollard, Bradford

“ Best one this year. ”

WYG, Manchester
